

Configuring an Application to Use Spring Security

Bryan Hansen

DIRECTOR OF SOFTWARE DEVELOPMENT

@bh5k

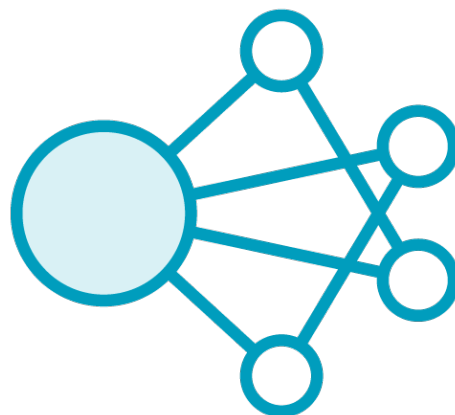

What Is Spring Security?

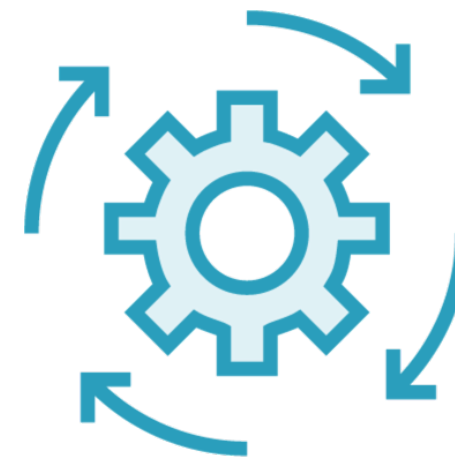

Integration

Web

CAS

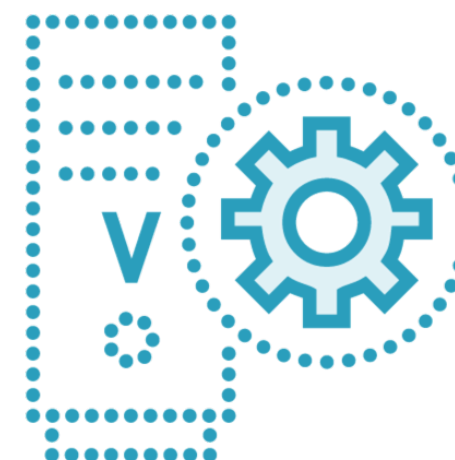

OAuth

LDAP

Database

Web Services

Architecture

Built on Spring

Filter/Servlet based

Multiple authentication models

Encouraged salts

Avoids session hacking

Full featured

Prerequisites

Java

Maven

IntelliJ

Tomcat

<code/>

GitHub

Exercise Files

Authentication

Who am I?

Authorization

What can I do?

Filter

Entry point

Role

Right

User

Model

UserDetails

Contract

Service

Business logic

Repository

Data

Summary

What is Spring Security?
